Justification for decision: (Use continuation sheet if necessary and attach map)

The Ezra and Rebecca Haugh Farm, located south of Taneytown in rural Carroll County, MD, and consisting of a small farm complex, is not considered eligible for individual listing on the National Register of Historic Places. The property is outside of a potential Taneytown Historic District; however, along with other farmsteads in the vicinity, the property could contribute to a potential rural historic district. At this point, no examination of the area for rural historic district designation has taken place.

The property features a late-19th-century frame farmhouse, frame bank barn, a drive-through granary, a corncrib, a poultry house and a garage/machine shed. The dwelling is a two-story, four-bay, banked, double-pile structure standing on a stone foundation. The house has three additions, including a large, one-story sunroom on the rear elevation which detracts from the historic appearance of the house.

The bank barn stands SW of the house and features a recessed forebay and an integral side shed on the east end. The imposing structure is covered with a gable roof and has vertical board siding. Although the property retains its agricultural setting and includes several domestic and agricultural buildings, only the house and bank barn date to the original period of construction (fourth quarter 19th century). The main dwelling has been compromised by recent additions. The property does not retain sufficient integrity to qualify for the National Register under Criterion A or C.

Documentation on the property/district is presented in: MHT Form

Taneytown vicinity
Private

The Ezra and Rebecca Haugh Farm consists of a late nineteenth-century frame farmhouse, a frame bank barn, a frame drive-through granary, a corn crib, a frame poultry house, and a concrete block garage/machinery shed. The farmhouse is a four-bay, banked, double-pile structure situated on a stone foundation. The house has six-over-six light sash windows and a one-story, wrap-around porch. Several early additions are present on the house. The barn features a closed forebay and an integral side shed on the eastern elevation. The barn retains its vertical plank siding and louvered ventilators. The granary retains its original hardware and siding. The Ezra and Rebecca Haugh Farm appears to be eligible for inclusion on the National Register of Historic Places under Criteria A and C. The farm is a well-preserved example of a late nineteenth century farmstead. The house, barn, and other outbuildings retain their historic appearance and rural context. The farmstead retains the integrity of location, design, setting, materials, workmanship, feeling, and association.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The Ezra and Rebecca Haugh Farm features a late nineteenth-century frame farm house, frame bank barn, a frame drive-through granary, a corn crib, a frame poultry house, and a concrete block garage/machinery shed. The property retains its rural, agricultural context.

The frame farmhouse is a four bay, banked, double-pile building standing on a stone foundation. The house retains its six-over-six light sash windows, as well its one-story porch across the facade which wraps around the west elevation to a rear addition. The building has three additions: a two-story, one-bay, shed roof wing on the east elevation; a one-story shed roof addition to the northwest elevation; and a one-story gable roof "sunroom" addition to the north of the earlier rear addition. Despite these additions, the house still retains an historic appearance.

The frame bank barn stands southwest of the house. The bank barn features a recessed forebay and an integral side shed on the east end. The barn retains its exterior vertical board siding and louvred openings. A concrete block addition was constructed onto the west elevation of the building. To the north of the barn is a four-bay concrete block garage/machinery shed. To the north of the barn is a two-bay, shed roof frame poultry house. Located between the house and the barn is a frame drive-through corn crib which retains its original hardware and siding. A small frame corn crib stands north of the wagonshed.

Prepare both a summary paragraph of significance and a general statement of history and support.

The Ezra and Rebecca Haugh Farm is a significant and well-preserved example of a late nineteenth century farmstead. The house, barn and other outbuildings retain their historic appearance and rural context.

The Ezra and Rebecca Haugh Farm was part of the land grant, "Resurvey on Brother's Agreement." The house does not appear on the 1862 or 1877 maps, but it may have existed at that time as a tenant house.

In 1884 Ezra and Rebecca Haugh purchased the property of 25 1/2 acres in two tracts from John T. and Mary Shriner (Carroll County Land Record Book 69: 480). Harry Hawk inherited the property from his father in 1906 (CCLRB 108: 562). The farm consisted of the 25 1/2 acres until 1949 when a third tract of 3 acres, 3 roods and 21 perches was added by Edward P. and Mary Shorb (CCLRB 201: 220) to compose a 29.531 acre parcel. The present owners purchased the farm in 1971 (CCLRB 482: 550).
